New

Fagor's Meat Ager cabinet stands out from the competition thanks to its innovative design and its efficient performance. Its humidity and temperature control system, along with its UVC sterilisation, provide it with maximum safety, creating perfect air circulation within the cabinet.

01.

Reliable and efficient

The maturation process guarantees that all microorganisms are completely eliminated, thanks to its activated carbon filter, which acts as an air purifier and helps produce excellent quality meat while ensuring minimum weight loss.

02.

Design

The chamber tinted glass doors not only protect the meat against UV light, but also improves the appearance of the meat. Its elegant and functional design allow it to be installed in a wide range of locations.

03.

Simple

In addition to being easy to install, it is also simple to use. All you have to do is place the meat inside and wait a few weeks while the maturation process is carried out before being able to enjoy the unparalleled culinary experience.
